Combine the power of MindManager 8 with Mindjet Catalyst, our simple but powerful online tool, for real-time collaboration with anyone, anywhere.

MindManager 8 for Windows

- Enjoy extended mapping capabilities such as advanced Microsoft® Office integration, web services, database linker, task automation, power filters, import/export functionality, and much more.
- Add Mindjet Catalyst and seamlessly work without boundaries. Colleagues and clients in locations across the globe collaborate with maps and files in secure workspaces on the Web. Virtual teams interact through web conferences and other online collaboration tools.

Mindjet Catalyst

- With Mindjet Catalyst, experience a fully integrated collaborative environment that includes co-editing of visual maps, export to Microsoft® Office® and Apple® iWork documents, shared workspaces and optional web conferencing.
- Enjoy un-fettered access to your information anytime, from any web browser.
- Add MindManager 8 for Windows and experience the full-range of mapping capabilities:
 - Export Maps to Microsoft Project or Visio
 - Track project summary data effortlessly through automated calculations of task progress
 - Find just what you need with powerful filter and search functions
 - Add dynamic content from customer databases, internal applications and other company resources
 - Surf or search the Web from within MindManager 8.

Note: MindManager 8 for Windows features marked with a "○" are activated when used in conjunction with Mindjet Catalyst.

*Features reflect latest release of MindManager and Mindjet Catalyst as of January 2010.
