

Mindjet Catalyst™

Mindjet Catalyst is the only collaboration platform that combines the industry's leading visual productivity application (mind mapping) with secure online workspaces and web conferencing, via an intuitive web interface. With Mindjet Catalyst, teams can visually connect ideas and information in a flexible, intuitive and interactive manner to save time, improve business processes, and drive innovation. Whether driving the sales process, managing meetings or projects, or simply getting organized, Mindjet Catalyst provides the platform for teams to work in a truly collaborative manner.

Finally, a tool that increases clarity and turns your ideas into action.

Delivered as a subscription-based hosted service, Mindjet Catalyst provides a collaborative work environment that combines critical workgroup capabilities in a single, intuitive interface providing:

- The sophistication of Mindjet's visual mind mapping to effectively illustrate and communicate ideas
- The flexibility of map co-editing in real-time
- The immediacy of online chat and optional web conferencing
- The reliability of secure workspaces to store maps and related documents in a central location
- The viral reach of sharing maps with your network - through email, blogs, and social networking sites
- The freedom from software downloads, installations, upgrades, or updates
- The ability to convert visual maps to Microsoft® Office® or Apple® iWork documents.

Visually connecting people and ideas to capture and communicate information in a truly collaborative platform

KEY FEATURES

Web-Based Visual Mapping

Collaborate with others to organize, manage, and communicate complex ideas and information using an intuitive diagram called a "mind map." Add images, hyperlinks, attachments, and more to help you better understand context, relationships, and priority of the information. Use web-based visual mapping to access mind maps anytime, from any supported web browser.

Secure Online Workspaces

Store maps and other files in Mindjet Catalyst's secure workspaces. Anyone in your account can get immediate access to the most recent versions. In addition, you can assign various permission levels (owner, author, or reader access) to each workspace member.

Full-Featured Web Conferencing (Optional)

Easily schedule or start a web conference directly from within Mindjet Catalyst*. Initiate an unlimited number of web conference meetings and invite up to 25 participants to each meeting. Anyone using a web browser with Adobe Flash 9 or above can participate. Mindjet Catalyst web conferencing includes: individual application as well as full desktop sharing capabilities, the ability to pass the control to others, support for video, VoIP, file transfers, and session recordings, all combined at a highly attractive price relative to standalone Web conferencing services**.

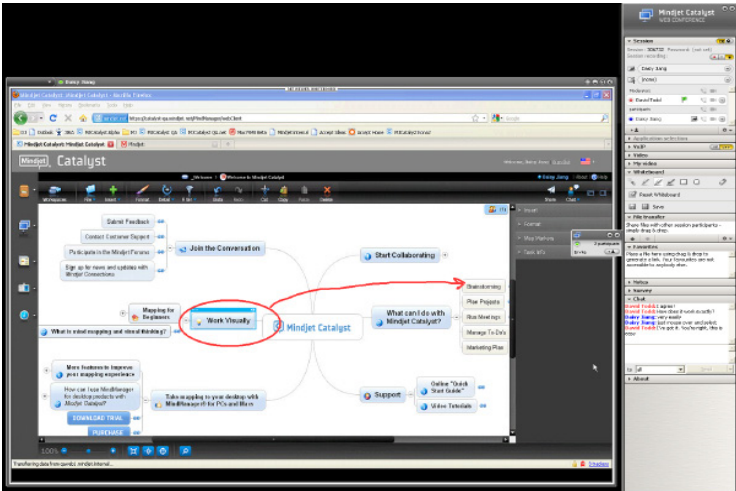

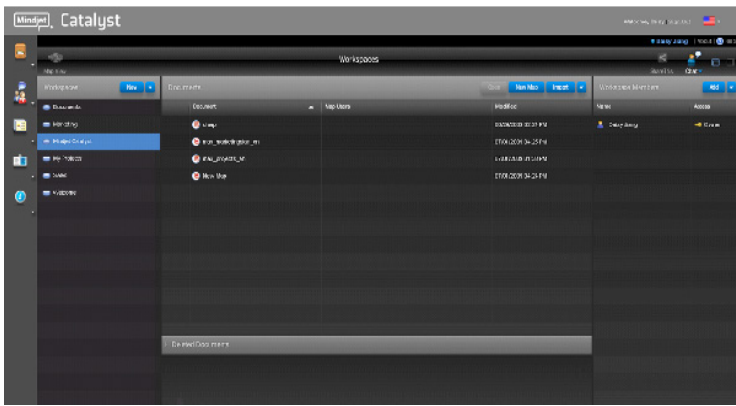

* Windows software download required for moderating web conferences

**Advanced web conferencing features listed are limited to Microsoft Windows users only

- Simulated Windows environment (via VMware®, Fusion®, or Parallels®)

For MindManager Connectivity

- Mindjet® MindManager® 8.2 for Windows or greater (optional)

Key Features Continued

Share Your Maps

Share your ideas and plans with your entire network. Email a link to your map, post it on your blog, or share it with your Facebook™, LinkedIn®, or Twitter™ networks. Recipients can either view your map in a browser, or copy it for their own use, if you choose.

Co-Editing Capabilities

Work simultaneously with colleagues to structure and refine ideas or embed relevant information within maps. You're free to modify ideas in one area of a map, while a colleague adds supporting details elsewhere. Edits are accepted from both Mindjet Catalyst as well as from Mindjet's desktop software, MindManager® for Windows. Mindjet Catalyst captures it all in real-time.

Integrated Chat

Use the integrated online chat to communicate immediately with team members in your account. You can chat with colleagues individually or chat with multiple participants in the web conference for even greater efficiency.

MindManager Compatibility

Maps created in Mindjet Catalyst are compatible with Mindjet's desktop software, MindManager for Windows and MindManager for Mac. MindManager for Windows users benefit from direct integration with Catalyst, allowing them to open workspaces and full access to Catalyst's revision support, to check in and check out maps and office documents with ease.
